LAND

GLOBAL

Established to meet the evolving demands of international trade.

Minaline is a Jordan-based, globally connected freight forwarding and logistics company committed to delivering reliable, efficient and technology-driven supply chain solutions. We combine deep industry expertise with advanced digital infrastructure to give clients seamless end-to-end logistics management.

Our strategic direction is defined by innovation. Through our MINA AI platform we are transforming traditional logistics by integrating artificial intelligence into pricing, documentation, operations and customer engagement — enhancing decision-making and automating routine processes.

With a steadfast commitment to integrity, excellence and innovation, Minaline continues to position itself as a trusted logistics partner for enterprises seeking a smarter, data-driven approach to global freight management.

CORE PRODUCT

VISION

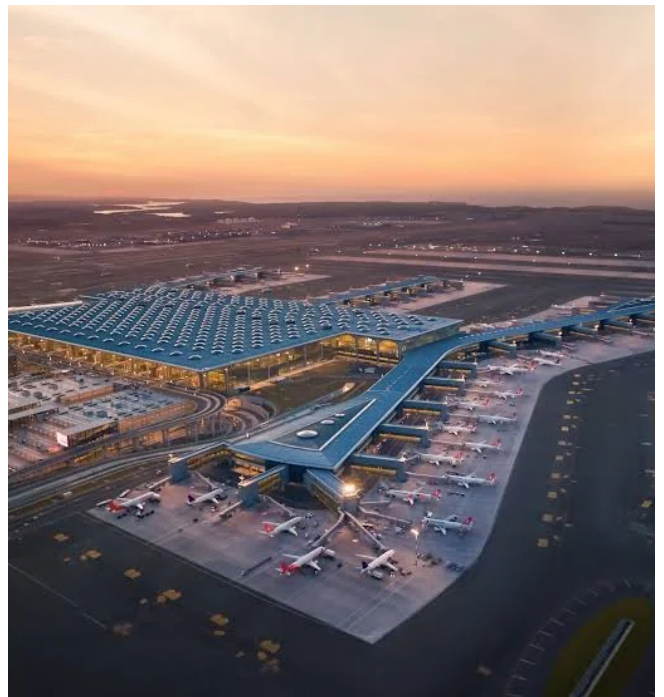

To redefine the future of freight forwarding and logistics in the Middle East by combining human expertise with intelligent technology — a connected world where businesses of all sizes can trade effortlessly, supported by a transparent, efficient and fully digital supply chain ecosystem.

MISSION

To provide our customers with the best freight services to global destinations, and to achieve great business volumes in the freight industry by providing top quality freight logistics services.

OUR STRENGTH

Our team brings years of experience across every field of logistics — from freight forwarding and customs clearance to operations, documentation and supply chain optimisation. That expertise lets us anticipate problems, respond early, and handle every shipment with precision and care.

More than words — the principles behind every shipment.

Our values define who we are, guide how we operate and inspire everything we do. They are the foundation of our success and the driving force behind our vision to lead the logistics industry through innovation, trust and excellence.

01

Integrity

Honesty and transparency are the cornerstones of lasting relationships. Every decision reflects our commitment to ethical business practices.

02

Excellence

We strive for perfection in every detail — from the first customer inquiry to the final delivery, setting new benchmarks for quality.

03

Innovation

Embracing technology is part of our DNA. Through MINA AI we are making freight forwarding smarter, faster and more connected.

04

Customer Focus

Our clients are at the heart of everything we do. We listen, adapt and deliver personalised solutions that help them compete.

05

Collaboration

Success is built on teamwork. Within Minaline and across our global network we foster knowledge-sharing and mutual trust.

06

Sustainability

We are committed to a greener future by optimising routes and reducing our carbon footprint wherever possible.

End-to-end freight, under one plan.

Our integrated services cover every stage of the supply chain — from international sea and air freight, customs clearance and inland transportation to warehousing, distribution and digital shipment tracking.

S / 01

Sea Freight

FCL and LCL on all major trade lanes, with optimised routing, weekly sailings through Aqaba and confirmed milestones at every handover.

S / 02

Air Freight

Time-critical movements through Amman — consolidated, chartered or next-flight-out, typically 48 to 96 hours door to door.

S / 03

Inland Transportation

Full and part loads across Jordan, the Levant, the Gulf and Iraq, with border formalities handled before the truck arrives.

S / 04

Warehousing & Distribution

Storage, handling and onward distribution close to the market you serve, with pick, pack, labelling and stock visibility.

S / 05

Customs Clearance

Import, export and transit declarations, pre-filed with verified HS classification so cargo moves the day it arrives.

Send us the lane and the deadline. A costed, bookable route comes back the same working day.

S / 01 **Sea Freight**

Minaline specialises in international sea freight, offering flexible and cost-effective shipping for all major trade lanes. We manage Full Container Load shipments from key global ports, ensuring on-time delivery and optimised routing, with real-time updates at every handover.

WHAT'S INCLUDED

- Full Container Load (FCL) bookings on all major lanes
- Less than Container Load (LCL) consolidations
- Carrier negotiation and space protection in peak season
- Port-to-port and door-to-door options
- Bill of lading and documentation handling
- Cargo insurance arranged on request

Modes	FCL · LCL
Main gateway	Aqaba
Sailings	Weekly

S / 02 **Air Freight**

When the deadline is the cargo. We build the fastest compliant routing — consolidated, chartered or next-flight-out — and keep you informed at every handover point from pickup to final delivery.

WHAT'S INCLUDED

- Consolidated and direct air freight
- Next-flight-out for urgent movements
- Charter arrangement for outsize or project cargo
- Airport-to-airport and door-to-door
- Dangerous goods handling with certified packing
- Temperature-sensitive and high-value cargo

Service	Time-critical
Gateway	Amman (AMM)
Typical transit	48–96 hrs

S / 03 **Inland Transportation**

Jordan · Levant · Gulf · Iraq

Cross-border and domestic road transport across Jordan and the region. Full and part loads, with the paperwork and border formalities handled so the truck does not stop longer than it must.

Full truck load (FTL) and part load (LTL)	Flatbed, curtainside, reefer and low-loader equipment
Cross-border movements with transit documentation	Border clearance coordination
Container haulage from Aqaba to inland destinations	Last-mile delivery and scheduled distribution

S / 04 **Warehousing & Distribution**

Short & long term storage

Storage, handling and onward distribution close to the market you serve. Consolidate inbound shipments, hold stock where it costs least, then release it in the quantities your customers order.

Short and long-term warehousing	Order fulfilment and scheduled distribution
Inbound consolidation and deconsolidation	Stock reporting and inventory visibility
Pick, pack and re-labelling	Bonded storage arrangement on request

S / 05 **Customs Clearance**

Pre-arrival filing

Most demurrage is a paperwork problem. We pre-file documentation, verify HS classification early and lodge release before the vessel berths, so your cargo moves the day it arrives.

Import, export and transit declarations	Duty and tax calculation with landed-cost estimates
HS code classification and verification	Certificates of origin and regulatory permits
Pre-arrival filing and release lodgement	Inspection attendance and query resolution

The balance between human expertise and intelligent systems.

The MINA AI platform automates rate management, booking confirmations, documentation and customer communication — reducing manual work and speeding up every decision. A human still signs off on what matters.

Rate management

Live carrier contracts held in one place, so a lane is priced against what is bookable today.

Documentation

Shipping instructions, bills of lading and declarations drafted from the booking, not retyped.

Operations & updates

Milestones confirmed as they happen, with exceptions flagged the moment they appear.

Customer engagement

Quotes, status and documents reach you on the channel you already use, including WhatsApp.

HOW WE WORK

01	02	03	04
Lane and rate	Booking and documents	In transit	Clearance and delivery
We price the lane against live carrier contracts and confirm space.	Booking confirmed, shipping instructions and B/L drafted for approval.	Departure, transshipment and arrival milestones confirmed as they happen.	Customs lodged ahead of berthing, then inland delivery to your door.

Global reach, local expertise.

Through our alliance with a trusted network of vetted agents we deliver global reach with local knowledge. Every partner is selected for reliability, compliance and performance, and every lane is run by people who know the ports on both ends.

SEA GATEWAY

Aqaba

Weekly sailings, inland haulage to Jordan, Iraq and the Levant.

AIR GATEWAY

Amman (AMM)

Consolidated, direct and charter uplift to Europe, Asia and the Gulf.

ROAD COVERAGE

Levant • Gulf • Iraq

Cross-border FTL and LTL with transit documentation handled.

INDICATIVE LANES

Aqaba → Genoa

14–17 days

Shanghai → Aqaba

26–30 days

Amman → Frankfurt

48–72 hrs

Indicative port-to-port transit. Ask us for your lane.

INDUSTRIES WE MOVE

Solar Energy & Renewable Power

Project cargo and panel volumes into Iraq and Lebanon.

Chemicals & Fertilizers

Regulated cargo with certified packing and permits.

Textiles & Apparel

Deadline-driven volumes for export manufacturers.

Expert Team

A highly experienced logistics team with deep knowledge in freight forwarding, customs, operations and global trade.

Customer-Centric Service

Dedicated account managers and AI support ensure real-time updates, transparency and personalised service.

Operational Excellence

Streamlined end-to-end processes that reduce time, cost and errors while improving reliability.

AI-Powered Innovation

The MINA AI platform automates pricing, documentation and communication, ensuring faster and smarter logistics decisions.

Trusted Global Network

Strong partnerships with vetted agents and reliable carriers across all major trade lanes.

Sustainability Focus

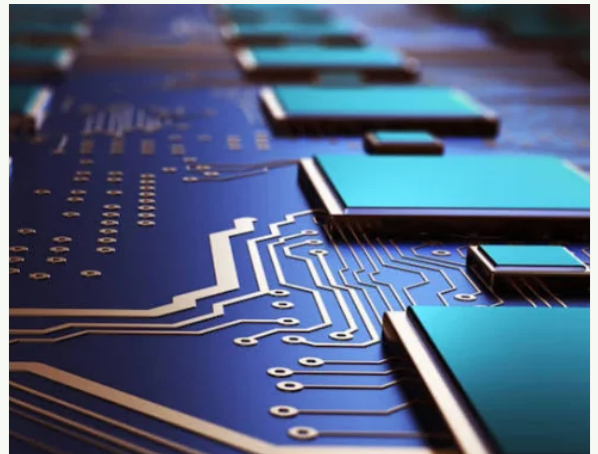

Commitment to environmentally responsible logistics through optimised routing and paperless operations.

OUR PEOPLE

Technology alone cannot move the world.

It is the dedication, integrity and expertise of our team that makes the real difference. Our people come from logistics, freight forwarding, supply chain management, finance, customer service and technology — a diversity that fuels creativity and ensures every challenge is met with a practical solution.

We value continuous learning. Through regular training, leadership programmes and exposure to international standards, our people stay ahead of industry trends. At the heart of our culture lies collaboration and accountability: we work as one team, united by a shared vision.
